

MOON AND ARIES - ELECTRONIC PRESS KIT (EPK)

ABOUT MOON AND ARIES

“Moon and Aries” is a transcontinental music duo creating cinematic soul music for inner landscapes. Their sound blends emotional storytelling with electronic and organic textures, resulting in songs that feel intimate, expansive, and deeply human.

Formed in 2021 by Jordana Moon (Canada) and Tom Aries (Germany), Moon and Aries emerged from a long-distance creative collaboration rooted in trust, intuition, and shared artistic vision. Their music unfolds like scenes - reflective, atmospheric, and emotionally present - existing beyond genre while remaining accessible and resonant.

Guided by a philosophy of melody meets meaning, Moon and Aries create music that explores transformation, connection, and stillness. Rather than chasing trends, their work focuses on emotional truth, cinematic depth, and a sense of timelessness.

With evocative vocals, immersive production, and poetic restraint, Moon and Aries’ songs naturally align with visual storytelling. Their catalog supports moments of introspection, transition, intimacy, and quiet strength - making their music well-suited for film, television, and narrative-driven sync placements.

Moon and Aries create music not as background, but as presence - a space where listeners can slow down, feel deeply, and reconnect with themselves.

MEET THE ARTISTS

 **Jordana Moon** (Canada) – is a singer-songwriter, vocal coach, and creative writer from Western Canada. Her music is rooted in emotional presence and conscious expression, shaped by a deep sensitivity to language, tone, and inner experience.

With a background in creative writing from Vancouver Film School, Jordana approaches songwriting as storytelling — allowing lyrics and vocals to unfold with intimacy and intention. Her voice moves fluidly between strength and softness, creating space for reflection, connection, and quiet empowerment.

Her artistic influences span jazz, trip-hop, neo-soul, and cinematic soul, drawing inspiration from artists such as Joni Mitchell, Lauryn Hill, Bee Gees, Portishead, and Massive Attack. In recent years, her work has evolved toward a more organic and grounded expression, embracing stillness, breath, and emotional honesty as central elements of her sound.

 **Tom Aries** (Germany) – is a composer and producer from Western Germany, blending classical piano foundations with electronic and organic sound design. His musical language is shaped by structure and intuition — where precision meets atmosphere.

With experience in film scoring and video game music, Tom brings a cinematic sensibility to Moon and Aries' sound, crafting immersive environments that support emotion rather than overpower it. His influences range from Depeche Mode, Kraftwerk, ABBA, and Portishead to the timeless textures of 1980s electronic music.

As Moon and Aries continues to evolve, Tom's production has expanded beyond synthesizers to incorporate guitar, saxophone, and tactile acoustic elements — allowing warmth, imperfection, and human presence to play a more central role in the duo's sonic identity.
