ABOUT MOON AND ARIES

“Moon and Aries” is a transcontinental music duo creating somatic soul music through cinematic expression. Their work is rooted in emotional presence and embodied listening - music that is felt in the body as much as it is heard.

Formed in 2021 by Jordana Moon (Canada) and Tom Aries (Germany), Moon and Aries emerged from a long-distance creative collaboration grounded in trust, intuition, and shared inner awareness. Their music unfolds like scenes - reflective, spacious, and emotionally attuned - moving beyond genre into lived experience. Guided by a philosophy of melody meets meaning, Moon and Aries create music that supports grounding, connection, and inner regulation. Their songs are designed not to overwhelm, but to resonate - offering space for breath, stillness, and emotional integration.

Blending electronic atmospheres with organic instrumentation, evocative vocals, and cinematic restraint, “Moon and Aries” sound invites listeners into a state of presence. The music becomes a companion for reflection, healing, and quiet transformation. Naturally aligned with visual storytelling, their catalog supports moments of introspection, transition, intimacy, and inner return - making their work well suited for film, television, and narrative-driven projects.

Moon and Aries create music not as background, but as somatic experience - a space to slow down, feel safely, and reconnect with oneself.

ABOUT THE NEW SONG “BEYOND THE MIRROR”:

“Beyond the Mirror”, (Release date: March 6th, 2026), is a quiet, cinematic single from Moon and Aries’ upcoming album *Prairie Souls*. The song unfolds slowly and intimately, guided by emotional restraint, spacious production, and reflective lyricism. It explores inner release, transition, and the moment of choosing presence over fear.

Rather than following trends, the song invites attentive listening. It inhabits a timeless space between alternative, singer-songwriter, and cinematic sound, resonating with listeners who value depth, atmosphere, and emotional honesty.

CURRENT CHAPTER: PRAIRIE SOULS (2026):

Moon and Aries are currently shaping *Prairie Souls*, an upcoming eight-song album exploring grounding, connection, and inner return. The project expands their cinematic sound through organic collaboration - including guitar and saxophone - creating music that feels rooted, spacious, and physically resonant. *Prairie Souls* reflects a more embodied approach to songwriting and production, where sound, silence, and breath work together to support presence and emotional integration.

MEET THE ARTISTS

🎤 **Jordana Moon** (Canada) – is a singer-songwriter, vocal coach, and creative writer from Western Canada. Her music is rooted in emotional presence and conscious expression, shaped by a deep sensitivity to language, tone, and inner experience.

With a background in creative writing from Vancouver Film School, Jordana approaches songwriting as storytelling — allowing lyrics and vocals to unfold with intimacy and intention. Her voice moves fluidly between strength and softness, creating space for reflection, connection, and quiet empowerment. Her artistic influences span jazz, trip-hop, neo-soul, and cinematic soul, drawing inspiration from artists such as Joni Mitchell, Lauryn Hill, Bee Gees, Portishead, and Massive Attack. In recent years, her work has evolved toward a more organic and grounded expression, embracing stillness, breath, and emotional honesty as central elements of her sound.

🎹 **Tom Aries** (Germany) – is a composer and producer from Western Germany, blending classical piano foundations with electronic and organic sound design. His musical language is shaped by structure and intuition — where precision meets atmosphere. With experience in film scoring and video game music, Tom brings a cinematic sensibility to Moon and Aries’ sound, crafting immersive environments that support emotion rather than overpower it. His influences range from Depeche Mode, Kraftwerk, ABBA, and Portishead to the timeless textures’ of 1980s electronic music. As Moon and Aries continues to evolve, Tom’s production has expanded beyond synthesizers to incorporate guitar, saxophone, and tactile acoustic elements — allowing warmth, imperfection, and human presence to play a more central role in the duo’s sonic identity.
