"After we romanced our demons for the last time, it's time to romance the ones that matter most. Revive the dormancy of our deepest desires and rebirth them to allow our passion to burn like wildfire from all corners of the Earth. By the way: if you take the "H" at the end of EARTH and put it at the front, you get HEART.

The heart is the center of it all. Heal your heart, heal your life! As Moon and Aries, we lead with our hearts, and when they are filled to the brim like a warm cup of coffee - anything is possible!"

Now, let's shine a spotlight on the individual talents that constitute this duo:

Jordana Moon is a singer-songwriter from Western Canada whose music is a harmonic homage to consciousness and empowerment. Her lyrics play like a philosophical soliloquy set to melodious musings from her guitar, mandolin, ukulele, and violin. Jordana studied creative writing at the Vancouver film school. Her inspiration sprouts from a variety of genres and artists ranging from jazz, trip-hop, neo soul, to the likes of Joni Mitchell, Lauryn Hill, Bee Gees, Portishead, and Massive Attack.

On the other hand, Tom Aries, an electronic synthesizer musician from Western Germany, pours his classical piano education into spellbinding synth sequences. Having already made his mark in the sphere of computer game music and film soundtracks, Aries now directs his creativity towards the duo's offerings, attributing his inspiration to Depeche Mode, Kraftwerk, ABBA, Portishead, Röyksopp and the classic sounds of the 80s.

Behind the scenes of MOON AND ARIES:

The duo's journey into the music industry started on March 1, 2021. Both artists, separated not only by the Atlantic but also a whopping nine-hour time difference, found a common rhythm, working harmoniously through file sharing and virtual collaboration. Despite the geographical divide, Moon residing in Canada, and Aries in Germany, they have succeeded in creating a global impact.

Their discography, boasting 29 songs, has sounded across a myriad of radio stations spanning Australia, Europe, Africa, Asia, and America.

The fruitful collaboration between MOON AND ARIES has seen them progressively push boundaries. 2022 marked their foray into the platform with "The Arrival", a nine-track concept album. Not long after, the duo introduced us to "Paradise," a five-song summer EP, quickly followed by another 9-song concept album, "Break the Matrix" in 2023. Fast-forward to 2024, and they are priming their fourth album, "RESOLUTIONS & REVOLUTIONS."

Their songs "RESCUED", "BLURRED VISION", "TRAFFIC", "DON'T FEED THE DEMONS" reached the TOP 100 of the official DJ charts in the USA. Their song "THE ARRIVAL" reached now more than 1 million streams on SPOTIFY!

I'll take you up on all
You say that you're willing to give
Knowing you exist
Lifts me up like this
Quick trip to my past so I can find my bleeding
Heart, will you stay right here
I'll be back I swear
Cause I'm Recovering in your company
I love your company
And as you touch me
We are classified to claim our
Better space and time
A new hope for richer lives

What we both want
What we both need
A love revival
For our survival
In a world of people trying
To figure this out
All we need
Is a love revival
For our survival

In an inner state of emptiness
I want your tenderness
For my survival
A love revival
Changing the definitions
The words you limit
The words you show
We can't go on and on and on

In cruise control
Bring an extra key for me
I'll be bringing an extra seat
To the state of happiness
I want your tenderness
For my survival
A love Revival
Reach for my love
I reach for your love

Cause what we both want
And what we both need
Is a love revival
In a World of people trying
To figure this out
All we need
Is a love revival
For our survival

In an inner state of emptiness
I want your tenderness
For my survival
A love revival
Reach for my love
I reach for your love
Cause what we both want
And what we both need

MUSIC REVIEWS (examples):

“Overall, Moon and Aries’ “Don’t Feed the Demons” is a compelling and emotionally charged track that explores the conflict between inner and outward darkness, ultimately emphasizing the imperative of self-preservation and maintaining one’s sense of self. As I listened, my senses intensified, and I was transported to a realm where inner demons are confronted head-on. The song’s mesmerizing blend of vocals, performance, lyrics, and production weaves a spell that is tough to break. With every note, it’s a reminder that, just as the song suggests, confronting our inner darkness is the first step toward positive change.”

“Reinforcing the outworldly constructs of emize are the luminous electro-pop spheres of duo, ‘Moon and Aries’. With this latest track, ‘Don’t Feed the Demons’ they delve into a cerebral thematic sphere. Inspired by reflective and pensive planes, the song is an immersive composition that brings light to darkness, color to melancholy, and wisdom to demons. Jordana Moon’s idiosyncratic vocal appeal beautifully plays into Tom Aries’ production style.

Each chorus is an epiphanic space, filled with luminous textures, ascending beats, and evocations. Despite the ethereal facets built into the song, the listener can’t help but relate to the visceral humanistic frames that the artists create within it.”

“Jordana Moon’s vocals are the emotional compass here. Her voice guides you—or should I say, guided me—through the song’s intricate layers. And Tom Aries’ synthesizer work? It’s like a magician’s trick; you know you’re being led, but you can’t help but follow. But what’s the trick? What’s the message behind the magic? The lyrics are a call to arms, urging you to confront your darker corners. It’s a song about courage, but what kind of courage are we talking about? It’s the bravery it takes to look inward and demand better of yourself. And isn’t that the most timely message as the nights grow longer? Moon and Aries remind us that the real demons are the ones we harbour within ourselves.”

It serves as a metaphorical challenge to their listeners – urging them to rise above the noise and keep moving forward, however daunting the road ahead might seem. Their music is an amalgamation of distinctive sounds, from Electro Pop to Cinematic Synth Pop, Trip-Hop, RnB, and Soul. The duo derives their sonic inspiration from a vast range of legendary artists, leading to creation that’s both retro and futuristic in its appeal. The duo’s assertion of wanting to activate higher spheres of consciousness through their music is representative of their approach – to create music that engages, comforts, and paves paths for inner revolution.”

Since debuting with their first album "The Arrival" in 2022, MOON AND ARIES have impressed with releases like the euphoric summer EP "Paradise" and the concept album "Break The Matrix." Their signature sound fuses Tom Aries' melodious instrumentals and seductive beats with Jordana Moon's transcendental vocals and poignant storytelling. Their latest single "KNOTS" demonstrates the duo's continued growth. Over woven synths, pulsing keys and a driving beat, Moon's emotive vocals plead for help unraveling from unhealthy thoughts and misconceptions binding her down.”

“Electro-pop and Trance make a solid entrance in Moon and Aries’ “Break The Matrix (Episode Three)” Consisting of three uplifting songs, this duo will make an audience move to the rhythm, and be filled with euphoria. Elements of trip-hop and house also collide in their music, ultimately forming a melodic bond that leaves a strong impression.

Mystery and rhythm take shape in the opening number “Illumination Society.” Epic song title by the way, and poetic too. There’s more to it. The first track is a thorough mix of trance music, while gripping beats and a soothing singer take the mic. Jordana Moon’s vocal chops are simply hypnotic, especially when Tom Aries’ digital soundscapes tag along. Their chemistry is vivid, and it elates me to hear each melody from start to finish.

“The dynamic duo of made up of German composer and producer Tom Aries, and Canadian writer and singer Jordana Moon, better known as MOON AND ARIES have created one of the best produced Synthpop projects of 2022. A must have for any electronic music fan who loves their music lush and expansive with glorious ear-warming vocal arrangements. In truth, MOON AND ARIES breach traditional electronica boundaries as well as synth-pop limitations and forge their own unique sound, which they call Synth Pop Opera. With their track record for blending human emotion with cutting-edge production beyond gimmickry, MOON AND ARIES sets their own bar very high on each new release.”

“Floating vocals and engaging instrumentation seem to sweep the listener off their feet and send them into an ethereal wonderland. There is so much to love about this project that it is hard to pin down any particular song as the best!”

(GIFTED BALANCE RECORDS, [WEBLINK FULL REVIEW](#))

“What makes this duo stand out to me is the fusion between complete calmness and a ton of energy at the same time. There are also a lot of 80s influences in this that I love. I think the 80s are having a bit of a comeback at the time of writing this, mainly because of the Netflix show Stranger Things, but I think this could work out in favour of Moon and Aries. Listening to Moon and Aries is like a massage for my ears. This is the kind of music that I can listen to all day and just feel like I’m being carried around on pillows. It’s a treat for the mind and ears at the same time.”

(TANBAY HIVE MUSIC BLOG, “PARADISE-EP”, [Paradise by Moon and Aries // EP Review — Hive](#))

“Evocative, poetic, thought-provoking, and artful – Jordana Moon knows exactly how to work a mysterious melody for all that it’s got to offer, and you’ll hear a sensationally smooth, fluid, and stylistic performance from her vocals, all throughout this new single. As for Tom Aries...well...my hat’s off to this man of music every bit as much folks – the sparkling & shimmering structure & design of “The Arrival” has so much depth to it & serves up a vibrantly complementary pairing with the vocals of Jordana, and vice versa, respectively.”
