“German composer Tom Aries and Canadian singer Jordana Moon comprise the enchanting music duo MOON AND ARIES. Blending electronic, cinematic and pop influences with gracefully poetic lyrics and entrancing melodies, their music enraptures audiences to an uplifting spiritual universe.

Since debuting with their first album "The Arrival" in 2022, MOON AND ARIES have impressed with releases like the euphoric summer EP "Paradise" and the concept album "Break The Matrix." Their signature sound fuses Tom Aries' melodious instrumentals and seductive beats with Jordana Moon's

transcendental vocals and poignant storytelling. Their latest single "KNOTS" demonstrates the duo's continued growth. Over woven synths, pulsing keys and a driving beat, Moon's emotive vocals plead for help unraveling from unhealthy thoughts and misconceptions binding her down."

(Saiidzeidan Musicblog, [LINK to full review](#))

Overall, `Break The Matrix` is an impressive showcase of Moon and Aries' musical talents. Their ability to seamlessly blend different genres and create a cohesive sonic universe is truly remarkable. Each track on the album is a masterclass in production and song writing, with memorable melodies and thought-provoking lyrics that linger long after the music has ended.

Moon and Aries are clearly at the top of their game and Break The Matrix is a testament to their unique vision and artistry. If you're looking for music that will transport you to another dimension, this album is definitely worth a listen."

"Electro-pop and Trance make a solid entrance in Moon and Aries' "Break The Matrix (Episode Three)" Consisting of three uplifting songs, this duo will make an audience move to the rhythm, and be filled with euphoria. Elements of trip-hop and house also collide in their music, ultimately forming a melodic bond that leaves a strong impression.

Mystery and rhythm take shape in the opening number "Illumination Society." Epic song title by the way, and poetic too. There's more to it. The first track is a thorough mix of trance music, while gripping beats and a soothing singer take the mic. Jordana Moon's vocal chops are simply hypnotic, especially when Tom Aries' digital soundscapes tag along. Their chemistry is vivid, and it elates me to hear each melody from start to finish.

"The dynamic duo of made up of German composer and producer Tom Aries, and Canadian writer and singer Jordana Moon, better known as MOON AND ARIES have created one of the best produced Synthpop projects of 2022. A must have for any electronic music fan who loves their music lush and expansive with glorious ear-warming vocal arrangements. In truth, MOON AND ARIES breach traditional electronica boundaries as well as synth-pop limitations and forge their own unique sound, which they call Synth Pop Opera. With their track record for blending human emotion with cutting-edge production beyond gimmickry, MOON AND ARIES sets their own bar very high on each new release."

(HITRADIO TUNEDLOUD, [WEBLINK HITRADIO](#))

"Floating vocals and engaging instrumentation seem to sweep the listener off their feet and send them into an ethereal wonderland. There is so much to love about this project that it is hard to pin down any particular song as the best!"

(GIFTED BALANCE RECORDS, [WEBLINK FULL REVIEW](#))

"What makes this duo stand out to me is the fusion between complete calmness and a ton of energy at the same time. There are also a lot of 80s influences in this that I love. I think the 80s are having a

bit of a comeback at the time of writing this, mainly because of the Netflix show Stranger Things, but I think this could work out in favour of Moon and Aries. Listening to Moon and Aries is like a massage for my ears. This is the kind of music that I can listen to all day and just feel like I'm being carried around on pillows. It's a treat for the mind and ears at the same time."

(TANBAY HIVE MUSIC BLOG, "PARADISE-EP", [Paradise by Moon and Aries // EP Review — Hive](#))

"Evocative, poetic, thought-provoking, and artful – Jordana Moon knows exactly how to work a mysterious melody for all that it's got to offer, and you'll hear a sensationally smooth, fluid, and stylistic performance from her vocals, all throughout this new single. As for Tom Aries...well...my hat's off to this man of music every bit as much folks – the sparkling & shimmering structure & design of "The Arrival" has so much depth to it & serves up a vibrantly complementary pairing with the vocals of Jordana, and vice versa, respectively."

(SLEEPINGBAGSTUDIOS, Canada, [Moon and Aries – "The Arrival" | Sleeping Bag Studios](#))

"The Arrival is one of those albums which delivers more with every spin. You might start off thinking that you have heard all of this sort of thing before and you may well have heard something like it, but there is an elegance and restraint, musical eloquence and even, at times, a sonic grace running through the music, and it is that merging of the human, analogue, heartfelt world with the digital, slightly clinical, programmed one that Moon and Aries seem to do so much better than any of their rivals. If the current zeitgeist, the fad, the fashion is for nostalgic, synth-scapes which tug at our old record collections whilst sounding cutting edge and forward-facing, well, Moon and Aries are not that, they are so much better than that."

(DAVE FRANKLIN, [dancing-about-architecture.com](#))

"Many bands label themselves with a unique genre to stand out, but few actually work to create newness and originality within their label, defying expectations and displaying endless amounts of creativity and innovation. The work of Moon & Aries on The Arrival is exactly that. This is imaginative, captivating music in the electronic space that blends a welcome amount of familiarity with the unexpected, drawing listeners in and holding them there through the last measure. Stream this stellar album and experience it for yourself."

(THE ARK OF MUSIC, [thearkofmusic.com](#))

"The Arrival album will take you on an uplifting existential journey throughout time and space, entrancing your senses with hypnotic beats and seductive synths, a storyline that will captivate your imagination and vocals that will soothe your soul."

(L.D. Brandon, [bridgemusicmagazine.com](#))

"The album proceeds with the beautiful synths and chord progressions and the delicate and intimate vocal parts of "Cold Classical, 80s Synth, Futuristic Electronica, and many others are the vibes we can feel while going more in-depth. What Moon and Aries did, goes beyond excellent songwriting and fantastic vocals; the whole construction of the album is designed to convey positive vibes and healing frequencies to the listeners.. "The Arrival" is undoubtedly one of the best albums of this year, and we can't wait for Moon and Aries' new projects and releases!"
