Moon and Aries is a transatlantic music duo (Jordana Moon – Canada / Tom Aries – Germany) creating Electronic Cinematic Soul - a distinctive blend of atmospheric electronic production, soulful vocals, cinematic storytelling, and emotionally immersive soundscapes. Working across continents, the duo writes, performs, and produces all their music independently, combining original songwriting, organic instrumentation, and detailed production with a commitment to authentic human creativity and no AI-generated audio.

Over the past six years, Moon and Aries have written and produced more than 30 original songs, receiving support from over 5,000 radio stations worldwide. Their music has achieved success in DJ pools, with multiple tracks reaching Top 100 rankings and being featured in clubs, restaurants, hotels, cafés, and curated listening environments across the globe.

Blending trip-hop influences, electronic soul, cinematic pop, lounge-inspired atmospheres, and organic textures, Moon and Aries create music that moves effortlessly between intimacy and scale. Their songs explore themes of transformation, connection, imagination, and the emotional landscapes that shape the human experience.
